Protect your business and increase employee productivity - with Spam Caller Protection

INCREASED PRODUCTIVITY

Maximize business efficiency by helping employees avoid time-wasting spam calls

INCREASED SECURITY

Protect your business and employees from fraud and financial harm

INCREASED CONTROL

Administrators can control blocking, tagging and routing of unwanted calls

ELEVATE SPAM CALLER PROTECTION

Spam Caller Protection is a free service for Elevate customers. It detects calls from aggressive telemarketers and fraudsters, and allows administrators to decide how to route these calls. Depending on your organization's preferences, you can tag these calls, send them to voicemail, or block them. This protection extends to every Elevate device, including the Elevate desktop and mobile apps.

- **Detect.**
Sophisticated call detection automatically recognizing robocalls and scammers.
- **Alert.**
Warn users of spam & fraudulent calls before answering a call from any Unite device.
- **Block.**
Elevate can block spam and fraudulent callers from reaching your employees.
